

Microsoft Word for Office 365 – Part 3 Training

Microsoft Authorized Training · Applied Technology Academy

Microsoft® Word for Office 365™ enables you to do far more than simple word processing. Word includes advanced image manipulation tools, collaboration features, cross-referencing and linking tools, entry forms and data collection, security features, and tools to automate document production. Being able to manipulate graphics and efficiently create, manage, revise, and distribute long documents and forms can help your organization create important and interesting documents.

LEVEL	DURATION	EXPERIENCE	AVERAGE SALARY	LABS
Intermediate	1 Day	2 years: Microsoft Office	\$50,000	Yes

Course Overview

Implementing time-saving features that enable you to work well in a collaborative mode will benefit both you and your organization. Constructing document elements that ensure your readers have access to pertinent information at the click of a button, while at the same time protecting sensitive information, is another important skill. Mastering these skills and techniques will make you a valued employee in your organization. In this course, you will explore advanced functionalities in Word.

You will:

- Use images in a document.
- Create custom graphic elements.
- Collaborate on documents.
- Add reference marks and notes.
- Secure a document.
- Create and manipulate forms.
- Create macros to automate tasks.

Course Outline
